

## Stakeholder's Manifestation of Interest

**Skills framework  
development for disaster  
risk management for  
European written cultural  
heritage.**

**ORGANISATION NAME /PROFESSIONAL**

The **SAFECULT** project is a powerful initiative which aims to build a cross-border best practice network for the risk management of European written cultural heritage. It also aims to construct a skills framework for disaster risk management and to build the capacity to put in place preventive and reactive measures to mitigate risks and inherent impacts of natural hazards.

In this context, by signing this MOI I am expressing my interest to be involved in the project's initiatives (i.e. conference, capacity building workshops, interviews, surveys, etc.), be updated on the project news, results and further development by joining in the SAFECULT network.

In order to support and extend the influence of the project SAFECULT network, I authorize the consortium to insert both the name of my organization and my name on the official SAFECULT website.
